

Folajimi Shodipo

Personnel Summary

I am a Software Developer with a good eye for design and passionate about building world-class products that are meaningful to human existence. I see myself as a flexible technologist who knows that there isn't one tool for all problems and one who has a hunger to learn and apply new approaches to solve difficult problems. I am familiar and proficient with the following technologies and tools that help me to be a valuable member of a team.
